Official Diary

Tuesday, 25 September 1951

Talked to Mr. Reber about SE 10 and NIE 31 for FCDA. O/NE is sending up a memorandum recommending that they receive this. Reber will get together with O/CD and O/NE and try to determine what we should furnish to FCDA. In this regard I have asked him to review the whole distribution field, both within the Government and for foreign governments.
